

KTM

EXC HARDENDURO | 2027

Lightweight, powerful, and built for the most demanding terrain, the KTM 300 EXC HARDENDURO is engineered to perform in extreme technical enduro conditions. Combining a responsive 2-stroke engine with a precise and agile chassis, it delivers exceptional traction, control, and confidence across steep climbs, rock gardens, and unpredictable terrain. Built on KTM's proven 300 EXC platform, widely regarded as the benchmark for technical enduro performance, the KTM 300 EXC HARDENDURO amplifies this foundation for extreme conditions. Compared to the standard model, the KTM 300 EXC HARDENDURO features a purpose-built race package designed for riders tackling the toughest conditions on the planet. Built around a distinctive orange frame and equipped with a dedicated HARDENDURO component package, it reinforces its factory-level intent in extreme conditions.

This motorcycle is designed, developed and produced in Austria.

Technical details

Dimensions (wheelbase):	1489
Seat height / Ground clearance:	963 / 347
Weight:	105,9
Fuel tank capacity:	9
Engine:	Single-cylinder, two-stroke engine
Cooling type:	Liquid cooled
Engine capacity cm³:	293,15
Cylinder / Cylinder diameter:	1 / 72 x 72
Stroke:	2
Starter:	Electric
Fuel system:	Keihin Electronic Fuel Injection (EFI)
Transmission:	MT6

The drive type:	Chain
Front suspension / Front suspension travel:	WP XACT upside-down telescopic fork, Ø 48 mm / 300
The rear suspension type / The rear suspension travel:	WP XPLOR shock absorber with PDS system / 310
The front brake / The rear brake:	Disc brake with a floating brake disc / Disc brake with a fixed brake disc
Front wheel:	90/90/21
Rear wheel:	140/80/18
